

# ProShow Gold Quick Start

## 1) Creating a File

1. Create a new "Folder" on your computer drive and copy the images you want to use for the show into it.
2. Open ProShow Gold
3. Select "New File" 
4. Name your show 
5. Set the aspect ratio for the picture size your show will be presented on. NB for the Clubs current projector you should select "Custom" and enter 1024 x 768 
6. Select (Click) "Create" 
7. Save your show.

## 2) Importing Pictures

1. Using the "Folder List" select your picture folder created in 1. 

Your Pictures should appear here. 

2. Select, drag and drop the pictures into the timeline in the required order. 

You now have a basic show select play to test it. 

# ProShow Gold Quick Start

## 3. Adding Sound Track

1. Select "Music" Icon
2. Insert CD into Drive
3. Select "Save Music From CD"
4. Select (Highlight) the required track.
5. Select "Save Track"

6. Find the picture folder you are working from to "Save in".
7. Select "Save"
8. If the Sound track does not "Import" automatically - Select, drag and drop the file into the "Soundtrack".

### Note

It can be easier to put your sound track in before your pictures which allows you to add or remove images to fit the length of music chosen.

### OR

You can edit the picture timeline to suit the sound track as follows.

- a) Select "Options" Icon
- b) Select "Sync Slide to Audio"
- c) Choose the settings you want.
- d) Select "Sync"

## 4. Adding Title Slides

1. With the mouse pointer over the slide you want to follow the Title Slide Click the right hand mouse button.
2. Select "Insert".
3. Select "Title Slide".

4. Set the "Format", "Effects" and "Placement" you want.
5. Enter your Text into the "Captions" box.
6. Select "OK".

## 5. Create Output

1. Select "Create Output" Icon.
2. Select the type of output you want NB - For Club Shows select "PC Executable"
3. Choose the "Menu" tab and select "No Menu".

4. Choose the "Shows" tab and make sure the "Include Intro Show" box is OFF **NOT TICKED**.

## ProShow Gold Quick Start

5. Choose the “Options” tab and enter the required settings.

NB- For Club Shows enter the these setting.

6. Select “Create” and save the Show.

### Notes (from user guide)

Creating simple shows in ProShow Gold only takes a few minutes, but you still have the power to make your shows as complex and customized as you like. This makes getting started in Gold very quick and easy without limiting your creativity.

### To Create a Quick Show:

1. Using the folder and file lists, locate the desired content for your show.
2. Drag the selected images and video into the slide list.
3. Select any slide, then choose Edit > Select All.
4. Choose Slide > Randomize Slide Order.
5. Choose Slide > Randomize Motion Effects.
6. Using the folder and file lists, locate the desired soundtrack for your show.
7. Drag the selected audio file from the file list into the audio list.
8. Choose Audio > Sync Show to set the show timing.
9. Click < Play > in the main toolbar to view a preview of your show.

### Work Flow for Creating a Show

In ProShow Gold, you can spend as little or as much time as you like creating a show. The amount of time you spend on show creation depends on how detailed you want to be when composing your show. This is a suggested work flow for building a show:

- **Add Content to the Show.** Drag content, images, videos and audio, from the file list into your show.
- **Set the Timing.** Change the slide timing and transition timing.
- **Choose the Transitions.** Select transitions from over 280 different transition effects.
- **Apply Editing, Motion and Captions.** Access the slide Options to customize slides.
- **Save the Show.** Be sure to save frequently while you are working and when you are finished composing your show.
- **Preview the Show.** Click < Play > in the Preview window to view the show at any time.
- **Create the Show Output.** Choose an output format when the show is complete.
